

Group Classes

I offer over 20 different group classes ranging from Absolute Beginner to Advanced and everything in between. For a current list of where I am teaching and what I am teaching visit: www.theartofyarn.blogspot.com

Group and Private classes basically fall under two categories: Skill Builder or Project

Skill Builder Classes

There are 4 levels in this series of classes. They are designed to take you from one level to the next with ease. So how do you decide which level to take? The four levels are:

- Beginner-no prior knitting experience whatsoever
- Advanced Beginner-know how to knit, purl, join yarn, cast-on, and bind-off with confidence as well as read simple patterns
- Intermediate-in addition to the above skills, you also know basic increases, decreases, how to correct errors, have an understanding of gauge, and a know how to read common patterns
- Advanced-all of the above plus knowledge of many stitch patterns, circular knitting, double points, shaping, picking up stitches, basic finishing techniques and are ready for a CHALLENGE!

If you are unsure of which level to take, please contact me and we can figure it out together.

Project Classes

In a project class (such as Felting or Mosaic knitting), all students will be knitting on the SAME ITEM week by week. These are wonderful classes to take when you want to learn how to knit a specific project. It is also beneficial when done as a group because you learn from each other as well as the instructor. Each project can be tailored to individual preferences so that your finished item will be uniquely yours! Check the skill level requirements at the beginning of each class description.

Private Lessons for 1 or The Buddy System (knitting for 2)

Feel like the world is moving so fast and you never get time for yourself? Want to have regular “chat” time with a close friend every week, but haven’t been able to make that happen? Have a child that knits and wants you to learn, too, or vice versa? Private knitting lessons are a great solution!

If the group classes don’t interest you, or maybe the dates and times simply aren’t working with your particular schedule, we can set up something that does work!

And what better way to learn than having your own personal instructor with you every step of the way?

I can design sessions that are made for your skill level(s). Prices are \$15.00 per hour or we can arrange a series of lessons at a package rate.

Guilds/Groups/Organizations

How about knitting lessons for your monthly civic organization or business group? Would your group like to volunteer to knit for a local or national charity (there are so many to choose from!), but not sure how to get started? I will come to your next meeting, teach everyone to knit, and get you started on a rewarding and lifelong journey of knitting for others! All you need is a few lessons and a plan!

Pricing based on number of people and number of sessions scheduled.

Call or email me to discuss the details!
